Your mental attitude is a great determining influence in your daily life. Begin the day with a positive and energetic mental attitude towards your works, plans and purposes, and it will elevate and enhance all your activities. The spirit in which you regard your fellow people and the world around you, will be reflected back to you. When you are in the right mental attitude, many things will seem to support to advance your work and interests.

Primarily it is your mental attitude which makes the day happy and productive or contrary. You can demonstrate the truth of this today by resolving to look only for the best, to be intelligently optimistic and to have confidence in the eternal

supremacy of god. Make more positive resolutions regarding the things you ought to do. Write down on a card, the special things, you resolve to do and read it several times a day. Assert in vigorous tones of the voice, the thoughts you wish to establish as unconscious habits of your life. The best means of impressing new resolutions upon your mind is by concentration, iteration and assertion. At the close of everyday, review your thoughts, your actions and know precisely what you have done with you new thoughts. It is a great thing to conceive a great idea, but it is still greater to put it into execution.
