- People always want to connect themselves with society in some or another way. In earlier days the modes of communication were limited. People socialized with other in their tracks. Earlier, socializing was

0148008/4

narrowed to visiting each others places, having big gathering, meetings in clubs, parks, and other public areas.

Now the time has changed. People have minimized their social life because of hectic life and increase in geographical distance and economic concerns with the arrival of technology, social networking websites and applications have heralded a revolution in the world. It has indeed brought people from all over the globe closer by creating, sharing, or exchanging information and ideas in virtual communities and networks.

These social networking sites are based on web-based technologies and create highly interactive platforms. It has gained momentum globally because of its better features, access, frequency, immediacy, usability and permanence.

P.T.O.

It has been recognised so widely, and its usage has increased so incredibly today that it has moved from desktop computers to laptops to mobile phones. The platform is undoubtedly easily obtainable and accessible.

Today, every person is addicted to social media and that too at a glaring speed. Some important social media sites like Facebook, Twitter, etc. have provided us with the prospect to connect with people and foster better relationships with friends and acquaintances with whom we cannot meet personally and share the happenings of our lives. Some tools like You Tube, Instagram, Whatsapp etc. have provided the platform to share pictures and videos with friends and relatives living in distant places. Back-to-back social reviews and travel sites

0148008/6

in social media have made it easy and exciting for people to shop and discuss with friends and others about what they are buying. Some sites offer collective buying offers to give consumers in fulfilled shopping experiences.(296)
